Steel Construction

**Rubber Saddle Pad**  
prevents marring

**Protected Handle Design**

**High-Strength Steel Construction**  
provides strength and durability

**Swivel Casters**  
for easy mobility

### Lifts Saddle to Chassis in Just One Easy Quick Pump!

The ruggedly crafted RFJ-3TQP is a versatile quick-lifter with a 3-ton lifting capacity. Heavy steel construction and sealed hydraulics guarantee maximum durability, while the built-in safety overload valve protects personnel and equipment. If you accidentally lift a vehicle too heavy for the jack, it won't suddenly collapse on you and ruin your day. The hydraulics in the floor jack will gently descend.

Plus, with the exclusive "Quick-Pump" feature, this jack rises with only a single pump of the handle. Four pumps and the vehicle rises about 20" in the air. It doesn't get any faster than that! The RFJ-3TQP represents the ultimate in jacking speed and convenience. Imagine how quickly two jacks working in tandem can get you lifted for wheel service, oil changes, suspension work and more!

### Features

- Alloy-plated ram
- Exclusive "Quick-Pump" feature lifts saddle to chassis in one easy pump
- Swivel casters for easy mobility
- Built-in safety overload system
- Designed for heavy use
- Heavy steel construction
- Flanged side plates provide
- Increased strength
- Double-sealed hydraulics prevents contamination and extends life
