

# RFJ-3000LPF

SKU# 5150060

## 1.5-Ton Super-Long Floor Jack

“Low Rider”

**1.5**  
TON  
CAPACITY

**2x**  
Dual Piston Pump

**High-Strength  
Steel Construction**

### High-Strength Aluminum – Built to Last

The Ranger RFJ-3000LPF low rider super-long garage floor jack features a lowered profile of only 2.75". At this level, virtually every vehicle that's fit for the road can be serviced with this jack, and the extended 34" long chassis easily reaches the factory-approved jacking points on most low ground-clearance vehicles.

With a 1.5 ton lifting capacity and accurate direct-drive pump operation, this super-long garage floor jack is the ideal combination of power and precision. Plus, the Ranger RFJ-3000LPF is constructed out of durable heavy steel and employs double-sealed hydraulics to extend the service life, so you know it's built to last. When it comes to floor jacks, manufacturing matters.

### Features

- Alloy-plated ram
- Dual piston hydraulic system
- Roller-cam plunger assembly
- Swivel casters for easy mobility
- Built-in safety overload system
- High-strength, rust-resistant hardware
- Industrial strength powder coat finish
- Double-sealed hydraulics prevents contamination and extends life
