More Precise and Accurate Wheel Balancing

Essential for the [more precise wheel balancing](#), this plate kit comes with 5 centering pin adapters to fit most cars and light trucks, imported and domestic. The specially designed lug bolt adaptors balance wheels far more accurately than a cone by itself. The result is a smooth, vibration-free drive for you and your clients. Includes flange plate kit and measuring caliper.

Features

- 8-pc. kit
- Includes centering pin adapters
- fits most import and domestic vehicles
- Balance wheels with greater accuracy
- Includes flange plate kit
- Includes measuring caliper
